Source: Apex Fund Administration (Guernsey) Limited. All amounts are expressed in the relevant Cell currency other than the total USD equivalent figures (using the following USD exchange rates: GBP 1.2624, EUR 1.0888, SEK 10.5042.) All data as at 30 November 2023.

*“Available Cash” means cash held by a Cell after deduction for any accrued fees and expenses but, for the avoidance of doubt, excludes unsettled cash from policy maturities and cash required to pay the premia on Current Underlying Investments from time to time attributable to the Cell for a specified period which will be retained by the relevant Cell or one or more subsidiaries of the Fund. In calculating the level of Available Cash for each Cell at 30 November 2023, the directors excluded an amount consisting of cash and receivables to pay the premia on Current Underlying Investments for 16 months which means that \$14.80m in aggregate was excluded across all Cells when determining the level of Available Cash.
